

Laboratorio práctico: Procesamiento de documentos desde el taller con SAP Build & Document AI

VASS

OCTOBER 2025

VASS, complex made simple.

SAP Joule

Activación y configuración de SAP Joule para S/4HANA, BTP, Sales & Service Cloud, Analytics Cloud y más.
Habilitar el desarrollo asistido por IA con SAP Joule para desarrolladores.

SAP Integration Suite

Implementaciones, migraciones y despliegues de SAP Integration Suite. Soporte para despliegues EDI, API Hub y Open Connectors.

SAP Business Data Cloud

Dimensionamiento inicial, planificación y despliegues de SAP Datasphere, SAP HANA Data Lake, Analytics Cloud, Cloud Data Integration y, opcionalmente, Data Bricks. Activación de aplicaciones inteligentes

SAP Build

Activar, educar y desplegar SAP Build en su entorno. Las soluciones Low-code y Pro-code permiten a los clientes crear extensiones de aplicaciones que cumplen con el 'clean core'. Incluye SAP WorkZone y Business Process Automation

SAP Joule Agents

Desarrollar 'Skills' (habilidades) personalizadas de SAP Joule. Basar SAP Joule en el conocimiento del cliente y los documentos del proyecto. Extender SAP Joule a Microsoft Teams. Activación de SAP Joule Agent Builder

SAP Document AI

Resumen del laboratorio

Lab Overview

Recommendation Actions

SAP Build Apps

- La plataforma de referencia para construir y desplegar extensiones de aplicaciones en entornos SAP
 - Business Process Automation
 - Business Application Studio
 - Joule Skill Builder
 - Próximamente* - Joule Agent Builder
- Construir aplicaciones Fiori en SAP Build: exportar y desplegar on-premise.

Disponible para TODOS los clientes de SAP

SAP Document AI Premium

- Document AI puede hacer OCR en documentos y aprovechar el Machine Learning tradicional para el procesamiento de documentos
- Premium incluye la capacidad de aprovechar LLM para interpretar documentos sin entrenamiento previo.
- Configurar en SAP BTP y luego acceder a través de API desde CUALQUIER aplicación SAP o no SAP
- Extraer datos de numerosos tipos de documentos.
CSV, DOC, DOCM, DOCX, DOT, DOTM, DOTX, EML, EMLX, JPEG, JPG, MSG, NUMBERS, ODS, ODT, OFT, OLM, PAGES, PDF, PNG, RTF, TIF, TIFF, TSV, TXT, XLAM, XLS, XLSB, XLSM, XLSX, XLT, XLTM, XLTX, XML

Configuración de SAP BTP

¿Cómo empiezo?

Components

- SAP Identity & Authentication Service
- SAP Cloud Connector (for on-premise)
- SAP BTP Enterprise Agreement or Pay-as-Go
- Licenses Required for this Lab
 - SAP Build Developer (your license today)
 - SAP Document AI
 - SAP Document Management Service

Aprovisionar subcuentas

1

Integrar IDP

2

Configurar roles

3

Planificar activaciones

4

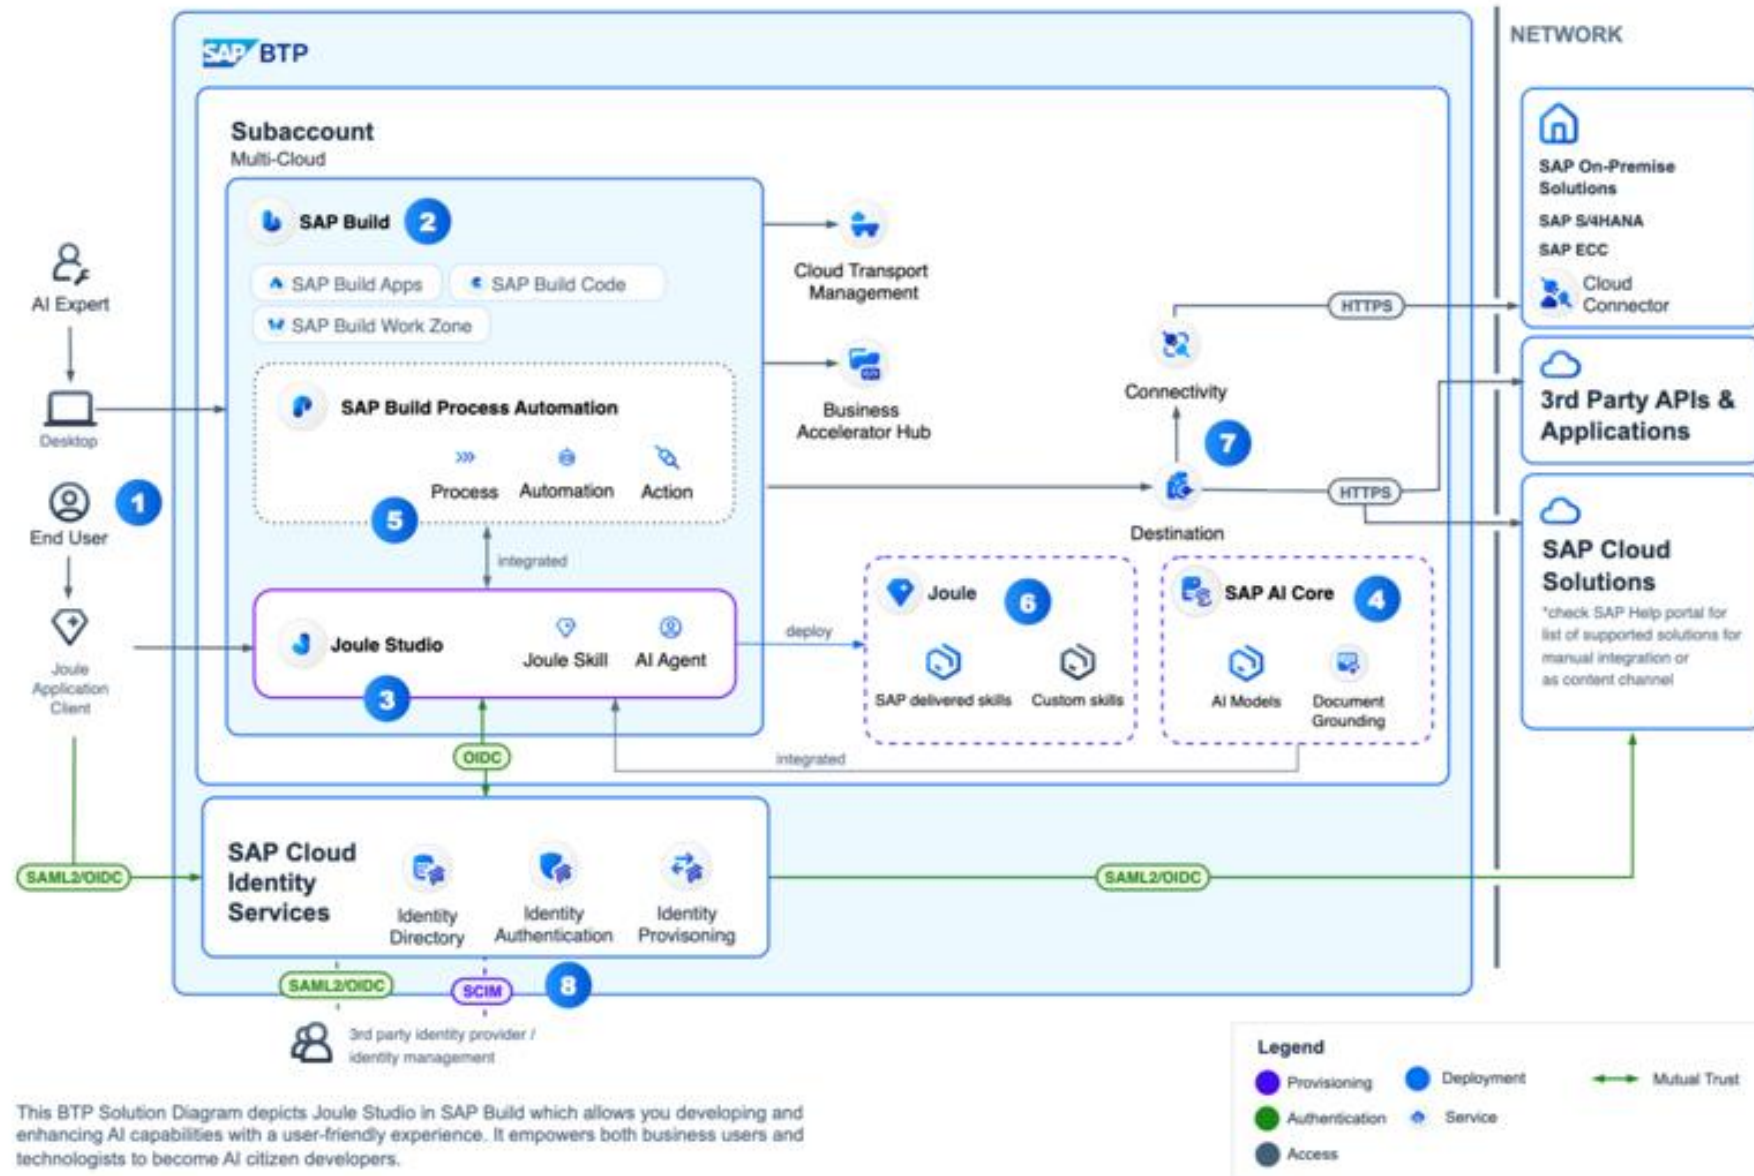

Ejecución de producción

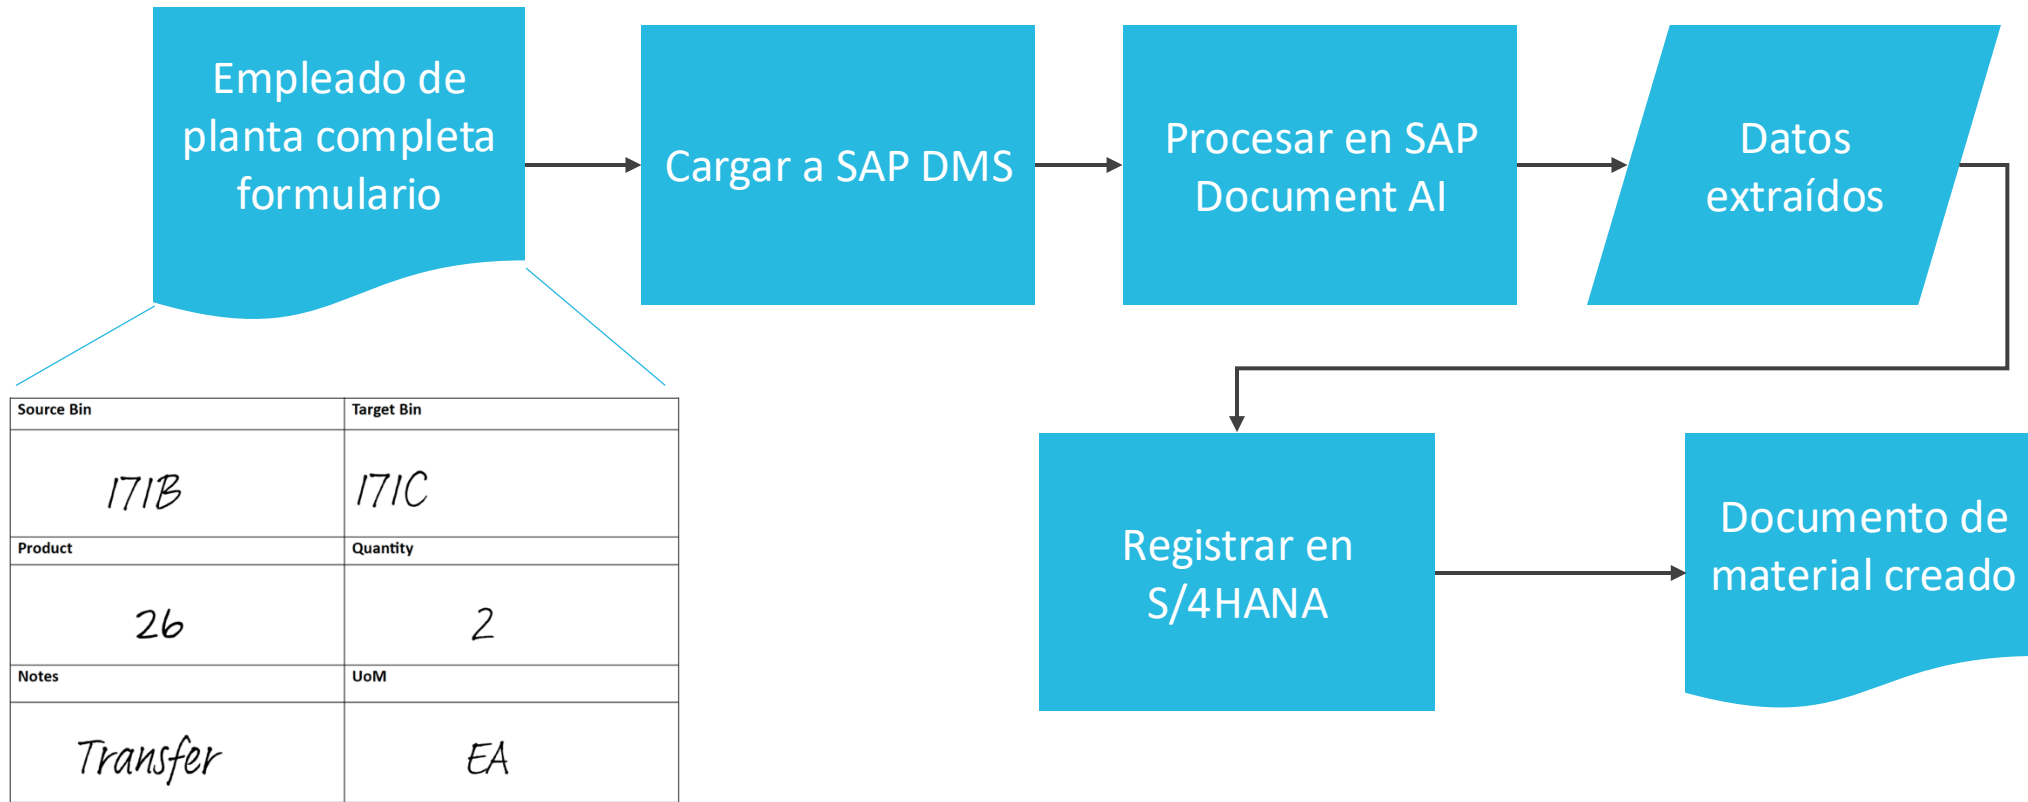

5

Arquitectura de ejemplo

Poniéndolo todo junto

Detalles del laboratorio

Detalles importantes

- Navegador: Por favor, use Google Chrome para este laboratorio
 - Si es necesario, cree un nuevo perfil de Chrome para evitar la caché y otras contraseñas
- IDs de usuario
 - Labuser###@vasscompany.com
 - Password: Newpa55!
- Lab Exercises: <https://github.com/MichaelPytel-VASS/LabExercises>
- URL importantes
- SAP BTP URLs:

VASS is a trusted SAP Gold Partner

Driving **Innovation**, Meaningful **Business Transformation**, and SAP **Investment Optimization**.

What makes VASS different?

VASS

LEADING WITH EDUCATION

Our methodology focuses on the outcomes our customer's need, guiding informed decisions to architect and implement SAP solutions that deliver real business value.

GLOBAL CAPABILITIES. LOCAL TOUCH

VASS North America has a dedicated team of Sr. SAP Experts with 200+ years of combined experience delivering successful SAP transformations in the region.

GLOBAL SAP PRACTICE

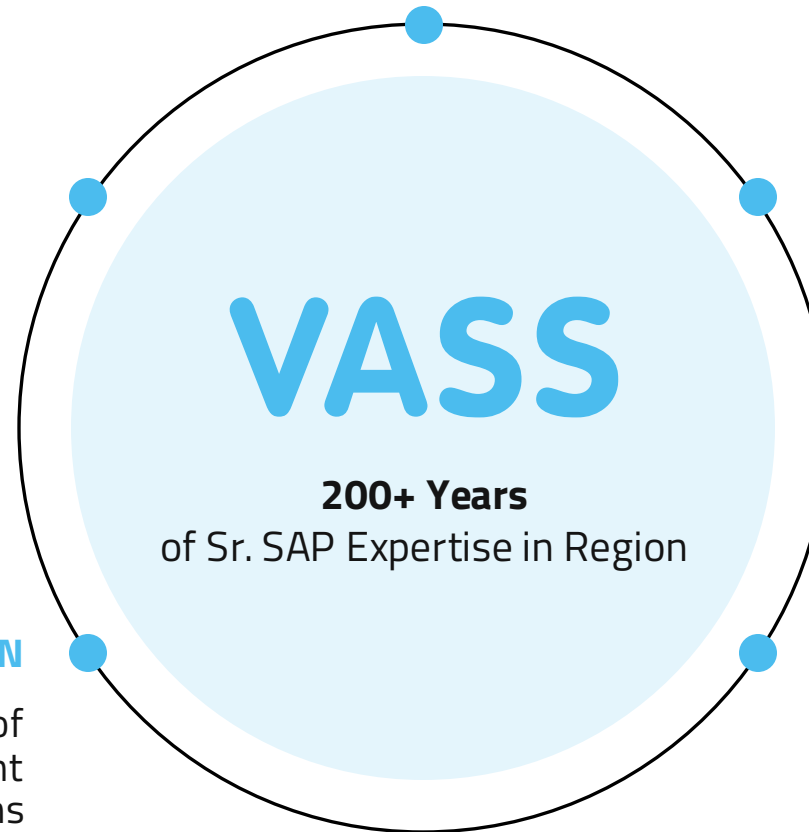

Our local depth is strengthened by VASS's global SAP practice of 500+ experts, 250+ certifications, and delivery across 26+ countries.

INNOVATION-DRIVEN

Our Experts are at the forefront of embedding AI and intelligent automation into SAP programs from day one to maximize ROI.

INDUSTRY-SPECIFIC SOLUTIONS

We built tailored accelerators across the full suite of SAP practices (ERP, CX, DSP, BTP, AI) for faster time-to-value.

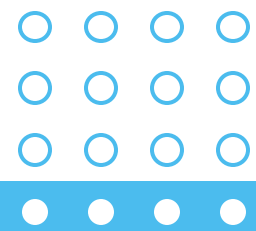

Our Products and Services

VASS is a trusted SAP Gold Partner, helping customers maximize their SAP investment and achieve customer-first business outcomes.

TOP 3 BENEFITS

- Fast SAP business outcomes via preconfigured cost-effective solutioning and rapid deployment expertise.
- Embedded AI and automation across SAP applications from day one.
- Global SAP consulting leveraging local leadership, architects, and management complemented with regional right-shoring creative delivery.

+200

Years of Sr. SAP Expertise In Region

+500

SAP Experts across 26 Countries

+250

SAP Certifications

We help enterprises accelerate modernization through:

- SAP ERP transformation (GROW and RISE programs).
- Customer Experience (CX) and SAP Marketing Cloud deployments.
- Digital Supply Chain optimization and field service management.
- SAP Business Technology Platform (BTP) innovation and low-code extensions.
- Embedded SAP Business AI and intelligent automation across workflows.
